

UniSeal®

Gold

Lightly Powdered

Latex Exam Gloves

Our most popular lightly powdered latex examination glove, the *UniSeal® Gold*, is known for its comfortable fit and durability. Accepted by the American Dental Association (ADA), these gloves are perfect for dentists, lab technicians, or anyone who wears gloves for extended periods of time.

Features:

- Lightly powdered
- Smooth finish
- Easy donning
- FDA, and ASTM-certified
- Consistent and reliable quality
- Low modulus compound for maximum softness and comfort
- 100 Gloves/Box, 10 Boxes/Case

Ingredients: 100% Natural Rubber Latex concentrated and compounded with specification or formulation for high flexibility.

Donning Powder Type: 100% U.S.P. Cornstarch

Powder Concentration Level: Less than 200 micrograms per glove

Testing Method: RRIM Modified Lowry Microassay Test with precipitation of proteins using Trichloroacetic and Phosphotungstic acids or ASTM Standard Test Method D5712-99.
