

# UniSeal®

**Nitrile**  
**Powder-Free**

**Textured**  
**Synthetic Exam Gloves**

Also available Powdered:

*UniSeal® Nitrile Exam Gloves* are made from 100% soft nitrile, a synthetic compound that's completely free of skin-irritating rubber proteins. These leading-edge gloves conform to your hands far more comfortably than other non-latex alternatives, such as vinyl. So you get a cool, dry, precise fit, with far less hand fatigue. *UniSeal® Nitrile Exam Gloves* are also far more resistant to punctures and tears than either latex or vinyl and stand up to a variety of splashed chemicals, solvents, oils, and bases.

## Features:

- 4 mil thickness
- Thin Wall nitrile technology
- Puncture-resistant
